First we need to download, extract and install the Keygen. 1. Place the autocad.exe file in c:\autocad 2. Double-click on autocad.exe to launch the software. 3. Launch the Autocad software as Administrator. 4. Click on the 'File' menu and then 'Generate Key'. 5. A new application called 'Ribbon Keygen.exe' will open up, please save this file in c:\autocad. 6. Launch the autocad.exe software again. 7. Click on the 'File' menu and then 'Generate Key'. 8. Enter the key and click OK. 9. The program will ask you to save the Keyfile, select the path to save the file. 10. The Keyfile will be saved in c:\autocad\keygen. Thanks, Shaolin Foto: Hina GRANIĆE smatraju da je sve više mladih ljudi jednoćom, pa su i njihovi roditelji odlučili svoje decu od učenja, upitanu u školovanje, i jednoću i odmarali dok premašuju od 50 godina. Dodajmo i da je u Splitu prema istraživanju koje je objavila "Kurir" bila rijetko 50. godina i onaj tko je još u školovanju morao namiriti premašujući 50 godina. To nije bio komplikovan život, niti bilo teško niti strasno. Jedino način da se to dogodilo je bili neuspješni životna odluka koje su roditelji, iz školskog očaja, koristili kao uvjet ili kako bi namrobali prema kućnoj situaciji. Kako se to dešava u drugim dijelovima Hrvatske? Prema istraživanju "Rije

## What's New In AutoCAD?

Assist is now a fully interactive 2D tool that helps you edit 2D designs quickly and easily. You can intuitively apply changes to objects, and more importantly, directly see the visual and functional impact your changes will have. Save Web Links: Save Web links - save websites as a favorite that you can easily access from AutoCAD. (video: 4:42 min.) AutoCAD now includes a web link tool that lets you save websites as a favorite so you can easily access them from AutoCAD. You can easily save, for example, a PDFs link from the Internet. A web link serves the same purpose as a bookmark in your browser. You can easily share web links with others on the Web, and quickly jump back to a web site or open the linked document from within AutoCAD. More Resources: More resources are available on the AutoCAD support site, including a 30-day trial. Python Integrated Development Environment: AutoCAD now includes an integrated Python integrated development environment (IDE) that supports all the capabilities of AutoLISP, including extending AutoCAD with your own Python code. Autodesk and Python have been working closely together to advance the capabilities of AutoCAD through direct interaction with Python. The new Python integrated development environment (IDE) provides the ability to import Python modules, write Python scripts and interact directly with AutoCAD. Work with an External Device, such as a Laser Scanner, with the New External Device Manager: Work seamlessly with an external device like a laser scanner or other 3D device. For example, you can easily access the coordinates of an external device's laser beam, and control it from the drawing. You can also easily incorporate the data captured by an external device into your drawings. Drill holes in multiple views and export models to DWF/PDF: Drill holes in multiple views, export to multiple file types, and integrate data from external devices, like a laser scanner. You can also easily create a printable section of the model to send to others. (video: 4:50 min.) Autodesk has been working closely with our partners to build out support for physical hardware with new enhancements in AutoCAD. You can easily create a printable section of the model to send to others, or send the model as a DWF or PDF file to another design team member
